WHEELS

OPTIONAL ACCESSORIES

POWERFUL PUMPING. VERSATILITY BUILT IN.

The Wastecorp HW-100-200 gallon honey wagon series is available with 100, 150 and 200 gallon tanks sizes. This system is available with standard trolley mount, skid mount or truck mount. The HW-100-200 features a standard ATV connect package so you can transport your pump out with popular utility vehicles manufactured by John Deere®, Polaris®, Kawasaki®, Toro® and Honda®. This system is designed to maneuver easily on docks, cart paths and roads at small- mid size marinas and campgrounds.

PROFESSIONAL PUMP SYSTEMS USING MUD SUCKER® TECHNOLOGY - THE WASTECORP ADVANTAGE.

IT STARTS WITH A SOLID FOUNDATION

Nothing gets overlooked when Wastecorp designs a pump out. Your honey wagon features a heavy duty frame with welded hose stand to withstand high use and high traffic environments.

SKID MOUNT

Do you want to mount your honey wagon on a skid, concrete platform or pad, pickup truck or flat bed utility trailer? No problem. Tell your Wastecorp pump specialist where you need to use your new honey wagon and we'll ship it with the mounting package you need.

THREE WAY VALVE SYSTEM

Wastecorp's "pump-in, pump out" valve system allows you to transfer waste both into or out of the tank using the same pump. Just move the lever and you're ready to go.

† See pump specifications for solids handling information.

Waste oil skid mounted pump

Truck mounted waste collection

Trolley mount for marinas/campgrounds

Pump out vessel

Performance Range

1.5" or 2" Pump

Max. capacity	18 GPM
Max. suction lift	20' vertical or 75' horizontal
Max. discharge head	50' vertical or 300' horizontal
Solids handling	1½" dia or 50% by volume

Pump and Motor Specifications

1.5" or 2" Pump

Suction inlet/outlet size	1.5" or 2"
Max. liquid temperature	140 °F (60 °C) continuous
Pump body casing	Aluminum
Diaphragm	7" dia. fabric reinforced Buna-N
Flapper valves	Fabric reinforced Viton
Check valve seat	Aluminum
Gaskets	Neo-nylon
Inlet/outlet flanges	Aluminum
Gearbox	SEW Eurodrive or Siemens

Drive systems
 (specify at time of order)

Electric, gas, diesel, explosion proof, DC, air and hydraulic

Elliptical Tank Specifications

Tank material	Polyethylene white. (steel available)
Drain size	2" dia
Wall thickness	1/2" poly (call for steel thickness)
100 gallon approx. dimensions	26.75" W x 42.5" L x 26.5" H
150 gallon approx. dimensions	36" W x 48" L x 25.5" H
200 gallon approx. dimensions	34" W x 48" L x 33.5" H
