CUSTOM CONFIGURATIONS. SUPERIOR QUALITY.
YOUR NEED A SUPER DUTY.®

The TVP-450, manufactured by Wastecorp Pumps is a high performance vacuum system with optional rinse or jetter finction. Designed for septic waste, grease trap pumping, wastewater transfer, construction sites, government applications, facilities managment and site remediation services. Available in either stationary, slide in or trailer mounted units.

Slide-In Units

Slide in units are specialized vacuum systems that connect to the frame of a truck or to the interior of a pick up, box truck or dump truck. There are specific connection points to allow for installation.

Stationary

Stationary vacuum systems are capable of bolting to a concrete pad, dock or on land.
