Tank Options

Select either waste only tanks or waste plus water compartments.

Wastecorp uses premium steel tanks that stand the test of time. We offer dual compartment waste and water or external polyethylene water tanks (your choice)

Jetter Options

Expand the capabilities of your system with both waste collection and water jetting function. Jetters are ideal for cleaning catch basins, sewer pipes and general facilities maintenance.

Several jetter packages available to meet your job site needs.

Optional Equipment

Rear Manway

Designed to allow for easy maintenance and cleaning of tank interior.

Custom Tank Positions

Working on a slope or have unique tank positioning requirements? Wastecorp can help with that. We can position the tank at most angles and include ladders as well.

Automated or Spring Loaded Hose Reel

Make retracting and organizing your hoses easier with automatic or spring loaded hose reels. Available in 50, 100 or 150 ft lengths

Electric Driven Motor With Control Panel

Using your vacuum pumping system indoors or have a power source? Wastecorp offers an electric model with heavy duty industrial hose reel.

SUPER DUTY® VACUUM PUMPS

Designed and Manufactured by Wastecorp Pumps in USA and/or Canada.
