WASTECORP Pumps®

THE HV-800™

HEAVY DUTY HYDRO-EXCAVATION EQUIPMENT.

The Wastecorp HV-800 Series Hydro excavation trailer changes the perception that hydro vacs have to be large space restrictive machines. The HV-800 is a trailer mounted hydrovac and features most of the same productivity enhancing tools you see on the large hydrovac trucks with blower vacuum pumps like tilt tanks, automated rear door openers, tool racks and high CFM suction power. Wastecorp trailer are budget savers for your municipal or industrial fleet.

FEATURES:

- 430 CFM or 1000 CFM vacuum blower pump available
- 800 US gallon steel tank
- 4" – 16' boom hose
- 9' boom with 24" of hydraulic extension
- Tool rack
- Hydraulic tilt and automated door opening

THE SUPER DUTY IS MADE FOR:

- Pot holing
- Hydro Excavating*
- Utility Construction
- Slot trenching
- Sewer Cleaning
- Ground Excavating
- Storm drain, catch basin pumping and cleaning

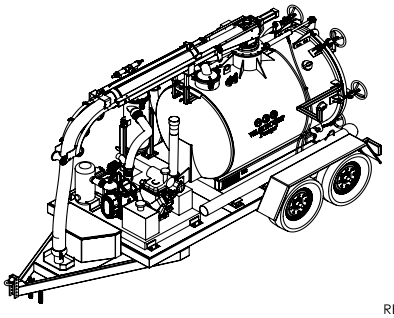

*/** Additional Equipment and options required
