THE PROFESSIONAL CHOICE FOR 525 GALLON WATER TRAILERS

The WT-500 Series is designed for a wide variety of fresh water distribution needs. You can use the WT-500 water trailer for almost any application like watering horse arenas, providing water for public events like marathons, triathlons, street festivals and commercial applications like construction. Your systems includes the latest valve technology using brass and industrial grade fittings and attachments to withstand the realities of punishing daily use. NSF compliant drinking water models also available.

PROFESSIONAL WATER TRAILERS USING PREMIUM COMPONENTS - THE WASTECORP ADVANTAGE.

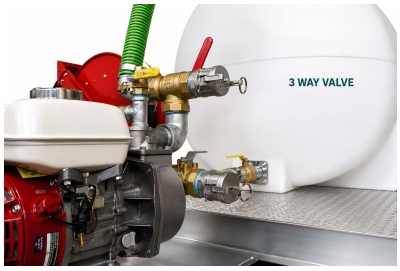

HIGH QUALITY COMPONENTS

Your Wastecorp WT-500 Series is designed and engineered with innovative features like standard hose and accessory storage, brass valves, helix hosing and professional water distribution hosing.

HIGHWAY USE OR OFF ROAD USE

You have a choice of our WT-500 DT model which is designed for public road use or our WT-500 UT Series which is designed for off road use. Select the system that is best for your water trailer needs. See page 2 for more information.

THREE WAY VALVE

You have a choice of our WT-500 DT model which is designed for public road use or our WT-500 UT Series which is designed for off road use. Select the system that is best for your water trailer needs. See page 2 for more information.
