PROFESSIONAL PUMP SYSTEMS USING MUD SUCKER® TECHNOLOGY - THE WASTECORP ADVANTAGE.

SKID MOUNT

If a skid mounted unit is more appropriate for your application, you have the option of selecting from a variety of mounting configurations. Specify your application at the time of order.

HOSE STORAGE

You have two options for your hose storage. The first is an optional corrosion resistant lockable storage container that allows you to lay hoses flat and lock when not use. The second option is our standard hose bin which allows you to coil the hose for easy access.

ENHANCED PRODUCTIVITY OPTIONS

Get time saving and productivity enhancing optional components for your honey wagon. We offer automated jack systems, electric hose reels, larger pump systems and automatic start engines to help you pump out wastewater fast.
