THE NEW STANDARD IN PROFESSIONAL QUALITY WATER TRAILER MANUFACTURING

Take one look at a Wastecorp WT-300 Series water trailer and you can immediately spot the difference that professional design and engineering makes. From galvanized trailer frames and decking material for enhanced protection against weather to industrial grade hosing to withstand the punishment of constant use, your investment with a Wastecorp water trailer pays off. Check out all your options on page 2 and make the new standard in water trailers yours today. Wastecorp WT-300 Series.

PROFESSIONAL WATER TRAILERS USING PREMIUM COMPONENTS - THE WASTECORP ADVANTAGE.

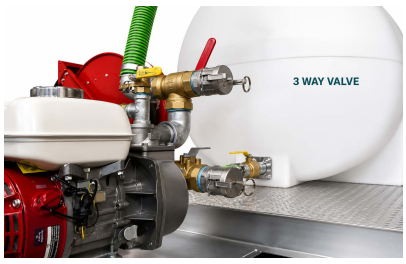

CONFIGURE YOUR OWN SYSTEM

Not all fresh water delivery applications are the same. That's why Wastecorp offers custom options like dual hose reels and deck set ups so you get the water trailer that adapts to your needs.

HIGHWAY USE OR OFF ROAD USE

Wastecorp offers two trailer mounted models: one for public road use and the other for off road use. The idea is to get the water trailer system you need and nothing you don't. See specifications on page 2.

Three Way Valve

The 3-way valve lets the operator redirect flow between connected lines, making it easy to switch operations without disconnecting.
