The ultimate in quality and dependability

Designed for multiple applications

BUILD OPTIONS

CFM Vacuum Power

CFM or cubic feet per minute relates to vacuum suction power. Wastecorp offers several CFM options. Our industry leading standard CFM is 127, 230 CFM, 350 CFM and higher are also available. We also offer blower packages for hydro excavation,

127 CFM

230 CFM

350 CFM

Engine Options

Wastecorp offers electric, gas and diesel power options for Super Duty Vacuum Systems.

Gas

Electric

Diesel

Dual Compartment Options

Select either waste only tanks or waste plus water compartments.

Wastecorp uses premium steel tanks that stand the test of time. We offer dual compartment waste and water or external polyethylene water tanks (your choice)

Jetter Options

Expand the capabilities of your system with both waste collection and water jetting function. Jetters are ideal for cleaning catch basins, sewer pipes and general facilities maintenance.

Several jetter packages available to meet your job site needs.

Optional Equipment

Rear Manway

Designed to allow for easy maintenance and cleaning of tank interior.

Work Light Package

Bright LED's for working in dark conditions. Beacon light and traffic diversion arrows (DOT compliant) available.

Storage Options

Locking storage compartments available depending on the model. Various lockable storage options to help deter theft and vandalism.

Tank Mounted Camera System

Wireless reverse assistance making maneuvering your job site easier.

SUPER DUTY® VACUUM PUMPS

Designed and Manufactured by Wastecorp Pumps in USA and/or Canada.
